

Memorandum

MIAMI-DADE
COUNTY

Date: November 3, 2015

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: Request for Additional Time and Expenditure Authority to Prequalification Pool No. 6097-0/15, Invasive Species Control Services

Agenda Item No. 8(F)(5)

Recommendation

It is recommended that the Board of County Commissioners (Board) approve this request to extend *Prequalification Pool No. 6097-0/15, Invasive Species Control Services*, for five (5) additional years and increase expenditure authority by \$333,000. This pool was established in April 2013 under the County Mayor's delegated authority for a two-year term and was subsequently extended administratively for an additional six (6) months.

The pool is used by multiple County departments to purchase invasive species control services, including associated monitoring, treating and reporting services. Invasive species are referred to as exotic plants and animals that have aggressively adapted to non-native wilderness areas and compete with native species for available resources. The services combat threats to the County's biodiversity caused by non-native species. Use of this pool offers the best value to the County because user departments will issue project-specific quotes (e.g., type of species, size of habitat and required equipment), as needed.

The requirements and terms and conditions of the pool would not change if a replacement solicitation were to be issued, and it is anticipated that the same vendors would prequalify for the replacement solicitation. Additional qualified vendors may be added to the pool at any time during the term of the pool award, subject to bi-annual ratification by the Board. This prequalification pool will remain advertised on the County's Procurement Management Services website to encourage additional participation. Outreach to registered firms was conducted to increase the number of prequalified firms. It is in the County's best interest to modify the existing pool for an additional five-year period so user departments are able to continue acquiring invasive species control services.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

This pool has an existing allocation of \$798,000 for the 30-month term and expires on November 30, 2015. The requested additional allocation of \$333,000 is based on anticipated usage during the five-year extension period. The yearly allocation under the extension period is less than the current contract's due to a reduction in anticipated usage.

Department	Existing Allocation	Additional Allocation Requested	Modified Allocation	Funding Source	Contract Manager
Parks, Recreation and Open Spaces	\$680,000	\$123,000	\$803,000	General Fund and Proprietary Funds	William Solomon
